OVERVIEW

Greenfield Demolition is a well-established Company with expertise in demolition, site clearance, strip outs and asbestos removal. We are well organised, trustworthy and professional and provide a competitive quote and fast mobilisation. We will always work with you to ensure all your project needs are met to the highest of standards.

We cover all areas of South East England, The Home Counties, and inner and outer London. We also cover parts of the South of England and East Anglia. Depending on the scale of the project, we may travel further afield.

OUR ACCREDITATIONS

Greenfield Demolition are members of the National Federation of Demolition Contractors. We joined the NFDC in November 2021 and are audited yearly to maintain our membership.

We are members of the training groups NDTG and CITB.

Greenfield hold many accreditations such as:

- SSIP
- Constructionline Gold
- Social Value
- Considerate Contractors Scheme
- QMS ISO 9001
- QMS ISO 14001
- SMAS
- CQMS

We also hold a Waste Carriers Licence.

DEMOLITION

Greenfield Demolition provide a comprehensive range of demolition services, from small projects to office blocks and industrial buildings, site clearance and dismantling.

With our own fleet of skips, plant, and machinery we can mobilise to projects quickly and can provide an emergency service for fire damaged buildings, flooding or other demolition works where there could be an immediate danger to the surrounding community.

Greenfield Demolition are members of the NDTG and CITB which ensures our operatives are fully trained and competent to undertake demolition works safely. Greenfield Demolition's senior management are also members of the Institute of Demolition Engineers.

Greenfield Demolition take our environmental responsibilities as a demolition contractor very seriously. Site waste management is monitored and recorded from the tender stage through to completion.

We realise the impact of our work has on the surrounding community and environment and have a highly trained workforce who are respectful of noise, dust, and pollution restrictions.

ASBESTOS REMOVAL

Greenfield Demolition offer asbestos removal, following guidelines set out by the HSE at all times. All site personnel are UKATA trained and NNLW certified. We undertake asbestos removal throughout buildings such as:

- Agricultural buildings
- Schools
- Industrial Units
- Fire Damaged Buildings
- Warehouses
- Offices

Our staff are trained to remove asbestos such as Asbestos Cement Roof Sheets, Guttering, Fascia's, Soffits and Floor Tiles.

Greenfield are also a licensed Waste Carrier. Post removal you will be issued with an official document which proves the offending materials have been disposed of in accordance with Health and Safety Executive guidelines.

As a legal requirement, Greenfield Demolition can also arrange a R&D Survey for your project or if you have a R&D, we can also arrange additional sampling.

STRIP OUT & ALTERATIONS

Greenfield Demolition undertake strip out and alteration works as either a stand alone package or together with the demolition. Common strip out packages we undertake are within schools, offices, warehouses, and factories. With this service, we can assist you with:

- Back to Shell
- Internal Wall/ Partitions Removal
- Fixtures and Fittings Removal
- Floor Covering Removal
- Mezzanine Removal
- M&E Removal
- Creating Openings
- Temporary Works Installation

SITE ENABLING

Greenfield Demolition will assist you from the enabling stage of a project up to the groundworks stage.

Greenfield often work as Principal Contractor with overall control of a project in line with CDM regulations.

We can assist with the following packages:

- Demolition Phase Plans and Environmental Management Plans
- R&D/ Pre-Demolition Survey
- Site Hoarding and Fencing
- Tree Protection
- Vegetation Clearance
- Service Disconnections
- Access Routes and Ramps
- Asbestos Removal

Following the initial tasks and the subsequent demolition works, Greenfield Demolition can also assist with the following packages:

- Remediation Works
- Reduced Digs
- Site Clearance
- Piling Mats

ENVIRONMENT, SUSTAINABILITY

Environment:

It's often overlooked that on average the demolition sector enables the re-use, recycling, or re-purposing of over 90% of materials from demolition works and this has been the case for years. It's not just environmentally sustainable, it makes sense for business too. Greenfield Demolition will segregate waste on each project into each waste type. Our office staff will source local waste transfer station allowing further processing and re-purposing of the waste.

Greenfield Demolition reached 96.7% recycling rate in 2022.

Our carbon footprint has been an area of significant reduction over the past 5 years. Greenfield have invested in vehicles and Non-Road Mobile Machinery. Our vehicles and NRMM fleet can operate within the ULEZ zone, and all run on AdBlue and lorries all run Euro 6 engines.

Greenfield have a team sourcing local labour and suppliers to assist with reducing transportation, using more sustainable fuels such as HVO.

Sustainability:

The 2030 Agenda for Sustainable Development is a global agreement by the UN to eradicate poverty and fight inequality and injustice, with a focus on 17 Sustainable Development Goals. Greenfield will assist in targeting the following sustainable development goals:

- Good Health and Well- Being
- Quality Education
- Decent work and economic growth
- Reduced Inequalities
- Climate Action

AND SOCIAL VALUE

Social Value:

Greenfield Demolition are accredited with Constructionline Social Value and Considerate Constructors Scheme.

Greenfield Demolition provide clear equality, diversity, and inclusion within the workplace. Greenfield Demolition's senior management are also Mental Health First Aid trained.

Our working environment impacts the surrounding community and environment, so prior to commencing on site, Greenfield Demolition are able to plan ways to reduce the impact to the surrounding area and ensure that the community and environment are respected.

Social Value

CASE STUDY

- Faircloth Construction Ltd
- Summer 2022
- 12 Weeks
- Woodford Green, London

Project Description

Greenfield Demolition were employed by Faircloth Construction to undertake the demolition works.

The project was located in the East of London.

The building(s) itself was a mixture of a two-storey office building approx. 600m² and approximately 8,000m² of warehouse space situated to the rear.

The offices were built with brick and block and the warehouse buildings were metal framed with asbestos cladding.

Scope of Works:

- Asbestos Removal (NNLW and Notifiable)
- Strip out the building(s)
- Clear all non-aggregate arisings from site
- Demolition of the buildings
- Remove slab and footings
- Remove car park area and hardstanding's
- Crush all aggregate demolition arisings and stockpile on site for later use by client
- Leave site clean, tidy and tracked in.

Waste Report

This project achieved a 97.5% recycling rate
